Protocol for Arrivals in Greece

## Welcome to Greece!

Beginning July 1, 2020, the Greek government has determined how the country will welcome travellers, carry out the necessary diagnostic screening and keep everyone safe throughout the season.

The Passenger Locator Form (PLF) is a key element in the planning. **All** travellers are obliged to complete their PLF at least 48 hours before entering the country, providing detailed information on their point of departure, the duration of previous stays in other countries, and the address of your stay while in Greece.

1

### Protocol for passengers arriving by air

- Arrival of passengers at the arrival gate.
- Transfer to the area where screening personnel are located and check the unique quick response (QR) code each passenger shows on their mobile phone screen or printed QR form.
- Screening personnel direct passengers, depending on their QR code, either to the screening area or to the exit (baggage claim area or passport control). Until the screening results become available, passengers tested for the new coronavirus SARS-CoV-2 by a trained health team are obliged to self-isolate at the address of their final destination as declared on their passenger locator form (PLF). Upon completion of the screening, they are directed towards the exit.
